Express Technologies Opens New Headquarters

www.xpresstech.com

WEXFORD, PA – January 15, 2001 – Express Technologies opens its new high-tech headquarters, providing significant advantages to its clients in the transportation and logistics industries.

The new facility enables the company to serve its customers quickly and more efficiently. New state-of-the-art technology ensures that the company will remain a national leader in technology for logistics, transportation and distribution.

The relocation accommodates Express Technologies growing staff and allow for rapid planned growth. The offices allow research, development, technical support, training, marketing, and administration to be under one roof. This will improve internal operations, and allow the company to respond to growing demand for its products and services.

The facility boasts a sophisticated R&D lab, direct fiber backbone to the internet, dedicated satellite tower, expanded multi-media conference areas and training rooms.

"This is an investment in our clients and in the future," noted Paul Maloney, president of the firm. "The new technology means that our software and services provide even more value to our clients. The expanded staff allows enhanced response to customers and the marketplace. Clients who have visited our new offices really appreciate the investments we have made for them. The headquarters are our springboard for further growth."

The new facility is located at 117 VIP Drive, Wexford, PA 15090. Wexford is a suburb of Pittsburgh, with convenient access to airport and interstate highways. Because the firm has a worldwide clientele, the location facilitates collaboration.
