Express Technologies Opens New Western USA Offices

www.xpresstech.com

Expands presence and national footprint

WEXFORD, PA – June 30, 2007 – Express Technologies announces the opening of its new offices in Phoenix, AZ.

The new facility establishes a closer presence to the firm's clientele in that area. The offices accommodate Express Technologies growing service to logistics service providers. The offices will be a base of operations for training, implementation and technical support, including a project management center.

Kelly Koscielniak, ExpressTech's Director of Implementations, will lead the team there. "Our expansion will facilitate collaboration and service to our customers on the west coast, mountain states and southwest," Ms. Koscielniak noted.

"We are thrilled that Kelly has accepted a transfer to lead this initiative. This provides ExpressTech a presence in an area of growth," added Brandon Barnhart, president of the firm. "Our clients who are headquartered elsewhere often have larger operations that we serve on the west coast. Our acceptance in the marketplace has our organization prepared for further expansion."
